environment & planning a

international journal of urban and regional research · volume 19 1987 · a pion publication

Editor A G Wilson
School of Geography, The University of Leeds, Leeds LS2 9JT, England

Coeditors
D E Boyce
Department of Civil Engineering, University of Illinois, 208 North Romine Street, Urbana, Illinois 61801, USA

R J Johnston
Department of Geography, The University of Sheffield, Sheffield S10 2TN, England

Coeditor and book reviews editor N J Thrift
Department of Geography, University of Bristol, Bristol, BS8 1SS, England

Editorial advisory board
R J Bennett, The London School of Economics and Political Science, England
J A Black, Department of Transport Engineering, University of New South Wales, Australia
G L Clark, School of Urban and Public Affairs, Carnegie-Mellon University, Pittsburgh, USA
R Fincher, Department of Geography, University of Melbourne, Melbourne, Australia
M M Fischer, Institute of Geography, University of Vienna, Vienna, Austria
P Gould, College of Earth and Mineral Sciences, Pennsylvania State University, USA
B Harris, Department of City and Regional Planning, University of Pennsylvania, USA
A M Hay, Department of Geography, University of Sheffield, Sheffield, England
H Kohno, Institute of Socio-Economic Planning, University of Tsukuba, Japan
S M Macgill, School of Geography, The University of Leeds, Leeds, England
E J Malecki, Department of Geography, University of Florida, Gainesville, USA
R L Martin, Department of Geography, University of Cambridge, Cambridge, England
H Newby, Department of Sociology, University of Essex, Colchester, England
S Openshaw, Department of Town and Country Planning, University of Newcastle, England
T O'Riordan, School of Environmental Sciences, University of East Anglia, Norwich, England
Yu S Popkov, Institute for System Studies, Moscow, USSR
J Rees, Department of Geography, University of North Carolina at Greensboro, USA
P H Rees, School of Geography, The University of Leeds, Leeds, England
W Rothengatter, German Institute for Economic Research, Berlin, FRG
A J Scott, Department of Geography, University of California, Los Angeles, USA
M Storper, Architecture and Urban Planning, University of California, Los Angeles, USA
P Williams, Institute of Housing, London, England
N Wrigley, Department of Town Planning, UWIST, Cardiff, Wales

Contents

Volume 19, number 1

Editorials 1

Research policy and review 13. Environment-behaviour-design research techniques: an appraisal and review of the literature with special reference to environmental and planning-related information needs in the Third World B A Chokor 7

The geography of US union elections 1: the crisis of US unions and a critical review of the literature G L Clark, K Johnston 33

Households' utilities and hedonic prices for inner-city homes A G Phipps 59

A risk-return model for multiregion and multiproduct diversification of the firm D M Hanink, R G Cromley 81

Dynamic municipal allocation analysis L W Dolan, J Wolpert, J E Seley 93

Spatially disaggregated input-output tables: an evaluation and comparison of survey and nonsurvey results K G Willis 107

Algorithm 13: Strong component hierarchical clustering P B Slater 117

Reviews 127

Volume 19, number 2

Guest editorial 139

Research policy and review 15. From Little Englanders into Big Englanders: Thoughts on the relevance of relevant research A Gilbert 143

The geography of US union elections 2: performance of the United Auto Workers union and the International Brotherhood of Electrical Workers union, 1970-82 G L Clark, K Johnston 153

Recent advances in spatial interaction modelling: an application to the forecasting of shopping travel C M Guy 173

The Tinbergen analysis of an urban system and alternative approaches J B Parr 187

Industrial restructuring, foreign direct investment, and uneven development: the case of Wales J L Morris 205

Analysing spatial time series of local unemployment: a graphical approach using principal components analysis and seasonal adjustment procedures R Dunn 225

Urban welfare maximization and housing market equilibrium in a random utility setting L-G Mattsson 247

A critical note on Ball's reformulation of the role of urban land rent E Clark 263

Rent and social relations: a reply to Clark M Ball 269

Reviews 273

Volume 19, number 3

Guest editorial 285

The geography of US union elections 3: the context and structure of union electoral performance (the International Brotherhood of Electrical Workers union and the United Auto Workers union, 1970-82) G L Clark, K Johnston 289

Manufacturing-plant closures: a dynamic survival model P N O'Farrell, R Crouchley 313

Spatial public goods. 1: Theory Y Y Papageorgiou 331

Dynamic modelling of the building cycle: 1. Theoretical framework R Barras, D Ferguson 353

Households moving within the rental sector: mental schemata and search spaces S C Aitken 369

An alternative information theory approach for modelling spatial interaction J R Roy 385

Specification tests for nested logit models J L Horowitz 395

Maximum entropy convex decompositions of doubly stochastic and nonnegative matrices P B Slater 403

The problems of analysing party politics: Labour and Conservative approaches to rural conservation A Flynn, P Lowe 409

Labour was not pushed: it leapt D I Brotherton 415

Reviews 419

Volume 19, number 4

Guest editorial 431

Research policy and review 14. Environmental issues and the social sciences E J Tait 437

The geography of US union elections 4: patterns of close elections and determinants of the margins of victory and loss (the International Brotherhood of Electrical Workers union and the United Auto Workers union, 1970-82) G L Clark, K Johnston 447

Spatial public goods: 2. Applications Y Y Papageorgiou 471

Dynamic modelling of the building cycle: 2: Empirical results R Barras, D Ferguson 493

Migration age profiles for local authority areas in England, 1971-1981 J Bates, I Bracken 521

A tale of two cities: sociotenurial polarisation in London and the South East, 1966-1981 C Hamnett 537

Reviews 557

Volume 19, number 5

Special issue on producer services guest editor P W Daniels

Guest editorials 569

Understanding the location and role of producer services in the United Kingdom 575
J N Marshall, P Damesick, P Wood

Trade and location of producer services: a Canadian perspective 597
W J Coffey, M Polèse

The location choice of offices of international companies 613
J H Dunning, G Norman

Regulation, competition, and technology: the restructuring of the US commercial banking system B P Holly 633

Service activities and regional development: some European examples 653
A S Bailly, D Maillat, W J Coffey

The role of business-service offices in the economy of medium-sized cities 669
J H J van Dinteren

The location of services involved with international trade K O'Connor 687

Reviews 701

Volume 19, number 6

Editorials 711

Research policy and review 16. Geographical disparities in state cancer-prevention policies: the need for strong federal intervention M Greenberg 715

The geography of US union elections 5: reconceptualizing the theory of industrial unionism G L Clark, K Johnston 719

Accessibility and intraurban travel S Hanson, M Schwab 735

On the size distribution of cities: an economic interpretation of the Pareto coefficient 749
S H Suh

Tenure choice in the Dutch housing market M C Deurloo, F M Dieleman, W A V Clark 763

Empty dwellings: the use of rating records in identifying and monitoring vacant private housing in Britain R Smith, S Merrett 783

The spatial division of information labour in Great Britain 793
M E Hepworth, A E Green, A E Gillespie

Identification of segmentation criteria for the improvement of population forecasts 807
D A Hensher, M E Beesley

Spatial dynamics of populations with changing birth, death, and migration rates: a generalization of multiregional stable population theory J Ledent, A Rogers 819

Lognormal and Pareto estimates of city-size distributions: a critique Th W A Eppink 829

Reviews 835

Volume 19, number 7

Editorials 849

Research policy and review 17. Some applications of supercomputers in urban and regional analysis and modelling S Openshaw 853

An examination of the equivalence of three alternative mechanisms for establishing the equilibrium solutions of the production-constrained spatial interaction model R Crouchley 861

The US semiconductor industry: a locational analysis A J Scott, D P Angel 875

Efficiency, equity and pollution: the case of radioactive waste C Miller 913

Structural determinants of occupational mobility in a regional labor market P C Emmi 925

User control versus randomisation in geographical probability sampling: a compromise solution using controlled sampling L G O'Brien 949

Rural policies in the Gloucestershire Structure Plan: 1. A study of motives and mechanisms P J Cloke, J K Little 959

Reviews 983

Volume 19, number 8

Guest editorials 995

A dividing nation? An initial exploration of the changing electoral geography of Great Britain, 1979-1987 R J Johnston, C J Pattie 1001

Research policy and review 18. *Losing Ground*—or losing credibility? An examination of a recent policy debate in the United States S E Clarke, A M Kirby, R F McNown 1015

Rural policies in the Gloucestershire Structure Plan: 2. Implementation and the county-district relationship P J Cloke, J K Little 1027

A dynamical model of labor-market change in international labor migrations when demand for labor is exogenous P V Schaeffer 1051

Theme papers from the Tokyo Conference of the World University

The projection of world (multiregional) trade matrices W Isard, W Dean 1059

Stability of spatial competition for a large number of firms on a bounded two-dimensional space A Okabe, A Suzuki 1067

Long-run urban growth with agglomeration economies T Miyao 1083

Multiregional model with endogenous price system for evaluating road construction projects K Sasaki, M Shinmei, S Kunihisa 1093

Optimal replacement and maintenance of urban infrastructure P F Lesse, J R Roy 1115

Letter to the editor 1123

Reviews 1125

Volume 19, number 9

Guest editorial 1137

Estimation of pedestrian shopping trips in a neighborhood by using a spatial interaction model S Hagishima, K Mitsuyoshi, S Kurose 1139

Testing for misspecification in models of spatial flows M J Baxter 1153

City-size distributions and the world urban system in the twentieth century N Ettlinger, J C Archer 1161

Economic restructuring, culture, and gentrification: a case study in Battersea, London I Munt 1175

Defining functional occupational groupings J Sanderson 1199

Behavior of land developers: planning and the economics of information P V Schaeffer, L D Hopkins 1221

The repeated applicationof shift-share: a structural explanation of regional growth? D R Holden, J K Swales, A G M Nairn 1233

Where do centers come from? M H Krieger 1251

The AGW spatial interaction workstation M Clarke, S Openshaw 1261

Reviews 1269

Volume 19, number 10

Guest editorial 1283

Research policy and review 19. Britain's new spatial paradigm: technology, locality and society in transition P Cooke 1289

Quantitative measurement of some Marxist categories M J Webber 1303

Projections of the residential distribution of an ethnic group: Indians in Bradford P H Rees, S Ram 1323

An empirical study of the competing destination model using Japanese interaction data Y Ishikawa 1359

Cluster of cities versus city region in regional planning S Krakover 1375

Technological and demand change in energy use: an input-output analysis J M Gowdy, J L Miller 1387

Retail regulation in England and Wales: the results of a survey N K Blomley 1399

Reviews 1407

Volume 19, number 11

Special issue on quantitative methods and policy analysis guest editor M Clarke

Guest editorial 1421

Some implications of the commodification of information and the emerging information economy for applied geographical analysis in the United Kingdom
S Openshaw, J Goddard 1423

Quantitative methods in the real world: a consultant's view of practice J R Beaumont 1441

The context for methods: the constraints of the policy process on the use of quantitative methods M J Breheny 1449

Population forecasting and urban planning practice: a case study P Rainford, I Masser 1463

Labour-market theory, quantification, and policy
S P Pinch 1477

A general accounting model of intergovernmental tax and benefit effects on business
R J Bennett 1495

The measurement of efficiency in multiunit public services W D Macmillan 1511

Towards an applicable human geography: some developments and observations
M Clarke, A G Wilson 1525

Network evacuation modelling for flooding as a result of dam failure
F Southworth, S-M Chin 1543

Reviews 1559

Volume 19, number 12

Guest editorials 1563

Research policy and review 20. The World Bank's urban transport policy: authorised version, revised version and the apocrypha P J Rimmer 1569

Technical changes and the rate of profit in the Canadian food industry
M J Webber, S Tonkin 1579

Landsat MSS imagery to estimate residential heat-load density P J Curran, T A Hobson 1597

Spatial mobility, tenure mobility, and emerging social divisions in the UK housing market R Forrest 1611

The military scientific infrastructure and regional development P Wells 1631

Metropolitan out-migration of elderly females in Canada: characterization and explanation H-F Cheung, K-L Liaw 1659

Reviews 1673
